

Sakshi Santosh Satre

Full Stack Developer | Python Developer | Django Developer | REST APIs | React js | .NET

Mumbai, India +91 9987917480 | sakshicoder05@gmail.com | github.com/sakshi1727techie-bot | linkedin.com/in/sakshi5805

PROFESSIONAL SUMMARY

Python & Full Stack Developer with hands-on experience in developing scalable web applications, REST APIs, and dynamic frontend-backend integrated systems using Python, Django, React.js, and SQL technologies. Skilled in database management, API integration, debugging, and building responsive and user-friendly web applications.

Experienced as a Full Stack Developer Intern at SP Finance Company, contributing to real-time enterprise application development, frontend UI implementation, backend logic development, and database operations. Strong understanding of SDLC, software development practices, and problem-solving approach in building efficient and maintainable systems. Passionate about backend development and full stack engineering, with continuous focus on improving technical skills and building real-world projects that enhance productivity and user experience.

EDUCATION

Bachelor of Science (Information Technology), CKT College, New Panvel |
CGPA: 10.00 | Pursuing (2024-2027)
HSC – Dahiwadi College | 64.00%
SSC – Sudhagad Education Society, Kalamboli | 89.60%

INTERNSHIP

SP Finance Company Full Stack Developer Intern	1 March 2026 - 1 September 2026
• Worked on enterprise web applications using React.js, .NET, and SQL Server (SSMS). • Developed, tested, and validated REST APIs using Swagger. • Assisted in frontend development, backend integration, and database management. • Collaborated with team members on real-world application development and testing. • Gained hands-on experience in React.js, .NET, Prompt Engineering, and Generative AI concepts.	

PROJECTS

Blog Management System Technologies: React.js, .NET, SQL Server (SSMS)	Github : Project link
• Developed a full-stack blog management platform for creating, editing, publishing, and managing blog posts through a centralized system. • Implemented user authentication, authorization, and role-based access control to ensure secure access and content management. • Built CRUD functionalities for efficient blog creation, updating, deletion, and retrieval of content. • Integrated React.js frontend with .NET backend APIs and SQL Server (SSMS) database for seamless data processing and storage. • Enhanced content organization and user experience through a responsive interface and streamlined blog management workflow.	
Smart Scholarship Recommender Portal Technologies: Python, Django, PostgreSQL	Github : Project link
• Developed a web-based scholarship recommendation system to help students identify scholarships based on their eligibility criteria and academic profiles. • Built a secure backend using Django for managing student information, scholarship data, and recommendation workflows. • Implemented automated scholarship matching functionality to provide personalized scholarship recommendations. • Integrated PostgreSQL database for efficient storage and retrieval of student and scholarship records. • Improved the scholarship search process by reducing manual effort and enabling quick access to relevant opportunities.	

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL
Frontend: React.js, HTML
Backend: Django, .NET
Databases: PostgreSQL, SQL Server (SSMS)
Tools: Postman, Git, GitHub, VS Code, Google Colab, Visual Studio, Postman API Testing
Concepts: OOP, REST APIs, Problem Solving

CERTIFICATIONS

Python Programming Certification – TechSpace Programming Institute

- **Skills :** Python, OOP, Functions, File Handling, Exception Handling, Problem Solving
- **Credential ID :** TS-PY-2026-000212-Q9C

UX Design Introduction Job Simulation – Forage (Lloyds Banking Group)

- **Skills:** UX Design, User Research, Competitive Analysis, Survey Design, Customer Research
- **Credential ID:** 69995e46638c9cbddfb916eb

Generative AI Literacy – NASSCOM FutureSkills Prime

- **Skills :** Generative AI , Artificial Intelligence(AI), Prompt Engineering , AI Tools
- **Credential ID :** 25101202117
